

Reed Arvin, MCSE, CCNA

Home Base: Tucson, Arizona

Reed Arvin, MCSE, CCNA is a senior consultant for Canaudit, Inc. Reed excels in many aspects of I.T. security including application development, application security and penetration testing.

Reed holds a Bachelors of Science in Information Technology from the University of Phoenix and possesses the following professional certifications: Microsoft Certified Systems Engineer (MCSE), Microsoft Certified Systems Administrator (MCSA), Microsoft Certified Systems Engineer + Internet (MCSE+I), Cisco Certified Network Associate (CCNA), CompTIA Network+ Certified Professional and CompTIA A+ Certified Professional.

Prior to his work with Canaudit, Reed was responsible for designing, implementing, and maintaining Windows infrastructure. He worked as a senior programming analyst and became one of the head application developers. He also worked as a senior member of the I.T. security team where he made significant contributions to securing the network environment.

Reed has extensive experience in a broad range of penetration testing techniques and has written many custom security tools including NBTEnum, a NetBIOS enumeration tool, and PWDumpX, a password hash retrieval tool. Reed also spends time contributing to the security community by discovering and disclosing new vulnerabilities for popular Internet applications.
